SUMMARY

Results-driven and passionate Software Developer with 4+ years of experience in backend and frontend development, software optimization. Skilled in building and designing scalable, efficient, and user-focused applications with strong proficiency in modern programming languages, frameworks, and development tools. Adept at problem-solving, code quality, and process optimization, with a proven ability to collaborate effectively in agile, cross-functional teams. Committed to continuous learning, adopting new technologies, and delivering high-quality software solutions that meet business and user needs

PROFESSIONAL EXPERIENCE

Griffid B.V., Almere, Flevoland
Intern Software Development

August 2024–January 2025

- Contributed to the development of security and monitoring software, working on projects that supported real-time data processing and system reliability.
- Strengthened skills in problem-solving and analytical thinking, applying structured approaches to resolve technical challenges.
- Assisted in improving backend functionality and database management, ensuring smooth integration between software modules.
- Collaborated with experienced developers in an agile environment, learning best practices in version control, debugging, and clean coding.

January 2024–July 2024

InControl Simulation Solutions, Woerden, Utrecht
Intern Software Development

- I helped develop software applications using Pascal in Delphi, contributing to various projects that improved company operations and client solutions.
- I enhanced my technical skills and knowledge through mentorship and guidance from experienced industry developers, focusing on best practices and advanced programming techniques.
- I enhanced my technical skills and knowledge through mentorship and guidance from experienced industry developers with a large focus on best practices.
- I improved my communication skills within the workspace, understanding the importance of clear and effective communication for project success and team cohesion.

Oosterveen Media, Almere, Flevoland
Freelance Video Editor

October 2020–Present

- I started editing videos when I turned 16 as a hobby and have been doing content creation as a past time since I was 12. I landed my first big client in May of 2021 and registered my business in July 2021.
- Proficient in Premiere Pro and After Effects, I bring visions to life with creative precision. My skills span the entire Adobe Suite, guaranteeing top tier edits that consistently meet high standards.
- With an unwavering commitment to excellence, I have a sharp eye for detail. Whether it's colour grading or transitions, each frame is perfected to surpass client expectations.
- I've generated more than 200 million views, demonstrating my knack for capturing and retaining audience attention.
